

ChotaBeta Admin Panel

API Endpoints Documentation

Below is the complete list of RESTful API endpoints available in the Admin Panel backend. All JSON payloads conform to the internal DB structure.

>> Authentication

[POST] [/api/auth/login](#) - Admin login
[GET] [/api/auth/me](#) - Get current admin profile

>> Dashboard Stats

[GET] [/api/stats](#) - Get dashboard counts and revenue

>> Categories

[GET] [/api/category](#) - List all categories
[POST] [/api/category](#) - Create a new category with image
[PUT] [/api/category/:id](#) - Update category and its image
[DELETE] [/api/category/:id](#) - Delete category

>> Brands

[GET] [/api/brands](#) - List all brands
[POST] [/api/brands](#) - Create a new brand with logo
[PUT] [/api/brands/:id](#) - Update brand details and logo
[DELETE] [/api/brands/:id](#) - Delete brand

>> Users & Customers

[GET] [/api/users](#) - List all customers
[POST] [/api/users](#) - Create a new customer
[PUT] [/api/users/:id](#) - Update customer details
[DELETE] [/api/users/:id](#) - Delete customer

>> Sellers & Stores

[GET] [/api/sellers](#) - List all sellers
[POST] [/api/sellers](#) - Create a seller
[PUT] [/api/sellers/:id](#) - Update seller details
[DELETE] [/api/sellers/:id](#) - Delete seller
[GET] [/api/stores](#) - List all stores
[POST] [/api/stores](#) - Create a store with logo/banner
[PUT] [/api/stores/:id](#) - Update store details
[DELETE] [/api/stores/:id](#) - Delete store

>> Products

[GET] [/api/products](#) - List all products
[POST] [/api/products](#) - Create a product with media
[PUT] [/api/products/:id](#) - Update a product
[DELETE] [/api/products/:id](#) - Delete a product
[GET] [/api/product-faqs](#) - List product FAQs
[POST] [/api/product-faqs](#) - Create a product FAQ
[PUT] [/api/product-faqs/:id](#) - Update a product FAQ
[DELETE] [/api/product-faqs/:id](#) - Delete a product FAQ

>> Delivery Boys

[GET] [/api/delivery-boys](#) - List delivery boys
[POST] [/api/delivery-boys](#) - Register a new delivery boy
[PUT] [/api/delivery-boys/:id](#) - Update delivery boy info
[DELETE] [/api/delivery-boys/:id](#) - Delete a delivery boy

>> Banners

[GET] [/api/banners](#) - List promotional banners
[POST] [/api/banners](#) - Create a new banner with image
[DELETE] [/api/banners/:id](#) - Delete a banner

>> Featured Sections

[GET] [/api/featured-sections](#) - List featured sections
[POST] [/api/featured-sections](#) - Create a featured section
[PUT] [/api/featured-sections/:id](#) - Update featured section
[DELETE] [/api/featured-sections/:id](#) - Delete featured section
[POST] [/api/featured-sections/update-order](#) - Reorder featured sections

>> Promocodes

[GET] [/api/promos](#) - List all promo codes
[POST] [/api/promos](#) - Create a promo code
[PUT] [/api/promos/:id](#) - Update a promo code
[DELETE] [/api/promos/:id](#) - Delete a promo code

>> Settings

[GET] [/api/settings](#) - Get all global application settings
[POST] [/api/settings](#) - Bulk update application settings

>> Other Data Management

[CRUD] [/api/faqs](#) - Manage App FAQs
[CRUD] [/api/delivery-zones](#) - Manage Geofenced Delivery Zones
[CRUD] [/api/app-notifications](#) - Manage Push Notifications
[CRUD] [/api/roles](#) - Manage Admin Roles
[CRUD] [/api/admin-users](#) - Manage Admin Users
[CRUD] [/api/tax](#) - Manage Tax Rates
